

## GET TO KNOW THE 12 SCHOOLS AT IU BLOOMINGTON

Each of our academic units offers a diverse set of majors, minors, and opportunities for undergraduates. Below are some quick takeaways for each but be sure to have your students check out all our campus has to offer on the various school websites.

## COLLEGE OF ARTS + SCIENCES

The College of Arts and Sciences offers a unique array of academic options and opportunities in the liberal arts and sciences to help students find their path and their community, while preparing both for work and a meaningful life. With 80 undergraduate degree programs in and across the natural and mathematical sciences, social sciences, humanities, and arts, students can combine multiple majors and minors to create an educational experience that matches their career aspirations and intellectual interests. Our students work closely with faculty, who are dedicated teachers and outstanding mentors.

The undergraduate experience is interdisciplinary by design, synthesizing coursework, research, and unparalleled student support through the [Walter Center for Career Achievement](#). Students are equipped with foundational knowledge, critical thinking, and career skills that employers seek most. Of 2023 graduates, 91.7% reported a successful career outcome within six months of graduation, and many of our students pursue an advanced degree in a professional school or graduate program.

Learn about the College and all we offer by exploring our [academic programs](#), [undergraduate research opportunities](#), and [career services](#).

Please reach out to us with any questions at [collinfo@iu.edu](mailto:collinfo@iu.edu).

## ESKENAZI SCHOOL OF ART, ARCHITECTURE + DESIGN

The Eskenazi School is where artists, designers, and merchandisers find their community and shape their skills with guidance from expert creatives. Our graduates go on to become innovators, artists, designers, and retail industry leaders. We are dedicated to preparing students for a wide range of careers, and foster one of the most important skills in today's job market—creativity—along with the ability to collaborate, think critically, and approach problems creatively.

The Eskenazi School offers degrees in comprehensive design, fashion design, interior design, merchandising, and studio art—including concentrations in ceramics, digital art, fibers, graphic design, metalsmithing & jewelry design, painting, photography, printmaking, or sculpture. No matter what you study, you will find space to explore your passions and express your creativity, all while designing the educational experience that best suits you.

## KELLEY SCHOOL OF BUSINESS

Ranked 9th by *U.S. News and World Report*, the Kelley School of Business differentiates itself from other business schools by giving students time to explore our 20 majors, four minors, and certificate program, offering a common curriculum for all business majors. Students develop career preparedness and professionalism in required coursework in their first two years, with major-specific classes in their third and fourth years. To prepare students for a global business mindset, Kelley offers over 60 study abroad opportunities in 29 countries—some are also counted as internships.

The Kelley School of Business offers direct admission automatically for fall 2025 high school students who complete their application to IU before November 1 and meet the [stated criteria](#). Students who decide to not include test scores as part of their application or who do not meet the stated criteria may complete a request for review by the February 1 deadline. Students may also apply for admission to the Kelley School after their first academic year at IU through the standard admission process.

Learn more about our [academic programs](#) and [direct admission](#) process.

# SCHOOL OF EDUCATION

The School of Education is ranked #1 in Indiana amongst education degrees. In addition to a variety of minors and license additions, the school offers [nine majors](#) including counseling and student services, early childhood education, elementary education, music education, secondary education, special education/elementary education-teaching all learners, special education—secondary, visual arts education, and world languages. Each of our programs is carefully designed according to our [Six Principles for Teacher Education](#).

The state of Indiana maintains reciprocal agreements with most U.S. states, allowing IU graduates to more easily teach in other states. Our [Global Gateway for Teachers](#) program offers an option for students to fulfill their student teaching requirement while gaining an invaluable cultural immersion experience recognized as some of the most rigorous and innovative professional opportunities available. Students can sign up for an information session in the fall or contact us for a one-on-one appointment any time during the year.

Learn more about our [academic programs](#).

Students who choose to apply to IU have the opportunity to be directly admitted to the School of Education, may be offered a stipend to teach abroad, and/or possibly receive an academic scholarship. For more information and to schedule an appointment please contact Associate Director of Undergraduate Recruitment Melissa Fulford at [mfulford@iu.edu](mailto:mfulford@iu.edu) or call our office at 812-856-8500.

## HAMILTON LUGAR SCHOOL OF GLOBAL AND INTERNATIONAL STUDIES

Students interested in global issues like climate change, foreign policy, human rights, immigration, and security will find what they're looking for in the Hamilton Lugar School of Global and International Studies—a national leader in the study of international affairs and strategic world languages, cultures, and regions.

We take a multidisciplinary approach to global education, with [22 majors and minors](#) that help develop knowledge and expertise in nearly every world region. We also offer instruction in over [80 languages](#)—the most in the country—and support [Language Flagship programs](#) in Arabic, Chinese (Mandarin), and Russian. This language fluency leads to global fluency, with more than 70% of our students participating in 300+ study abroad programs. By graduation, they have the language skills and regional knowledge to succeed in a diverse variety of careers in foreign affairs, policy, government, law, academia, business, journalism, and many others.

The first step to changing the world is seeking to understand it. We teach our students how.

Learn more about our [academic programs](#) or [request more information](#) about the Hamilton Lugar School.

## LUDDY SCHOOL OF INFORMATICS, COMPUTING, AND ENGINEERING

For students interested in technology, coding, artificial intelligence, or robotics, IU's Luddy School of Informatics, Computing, and Engineering offers five bachelor's degrees that cover the gamut from [computer science](#) and [data science](#) to unique degrees like [informatics](#), [intelligent systems engineering](#), and [cybersecurity & global policy](#).

Take advantage of IU's interdisciplinary approach by

combining a non-tech major with one of Luddy's [11 minors](#). No previous technology experience is necessary.

Luddy prepares its graduates well for in-demand technology careers in every industry. Of our 2022 and 2023 graduates who reported their outcomes, 98% indicated acceptance of a full-time offer or graduate school admission. Check out where our [students are employed](#) after they graduate from the Luddy School.

Learn more about our [academic programs](#).

Please reach out to us with any questions at [luddyrec@iu.edu](mailto:luddyrec@iu.edu).

## THE MEDIA SCHOOL

The Media School offers programs in media, journalism, game design, and cinematic arts. Undergraduate students can gain early hands-on experience through classes and internships, and by participating in the over twenty media-related student organizations available through The Media School. After graduating, alumni go on to be journalists, marketing professionals, advertising executives, public relations experts, filmmakers, game designers, and more.

Additionally, The Media School offers three [precollege programs](#) for current high school students: High School Journalism Institute, Game Development Camp, and the Cinema Academy.

Learn more about our [academic programs](#) and [admission](#) process. Reach out with any questions—or to set up a class visit or field trip—at [mschinfo@iu.edu](mailto:mschinfo@iu.edu).

## JACOBS SCHOOL OF MUSIC

Students at the Jacobs School of Music learn from internationally renowned faculty who are celebrated performers, scholars, and educators. Students will become a part of a music community like no other and will have the opportunity to put what they've learned in their lessons to the test, live and on stage, through numerous performances. We offer more than 1,100 performances a year by ensembles, orchestras, bands, soloists, and choirs as well as fully staged operas and ballets. In addition, and unlike many other music schools, Jacobs students can pursue an area of study in an outside field.

Interested students must first submit an IU application by our November 1 early action (non-binding) deadline, then submit the Jacobs School of Music Supplemental Application by December 1. Please review our [steps to apply](#) to learn more.

We welcome you and your students to attend an information session to learn more and connect with admissions staff. During the academic year, we offer in-person sessions and tours on weekdays at 10 a.m. Eastern Time. We also welcome you to join one of our virtual sessions, which will be offered several times per week during the fall semester.

---

## O'NEILL SCHOOL OF PUBLIC AND ENVIRONMENTAL AFFAIRS

The #1-ranked O'Neill School of Public and Environmental Affairs equips students with the leadership skills they need to launch a career in management, advocate for sustainable environmental change, or influence public policy. With a small student body of 2,000 students, we offer a collaborative learning environment where students can find their place in our community of difference-makers.

We provide competitive career preparation and encourage learning by experience. One in three O'Neill students studies abroad, 20+ students study and intern in D.C. each semester through our Washington Leadership Program, and all students must complete an internship to graduate.

Our most popular majors include law and public policy, management, environmental and sustainability studies, and healthcare management and policy. We're also one of the few schools in the country to offer arts management and nonprofit management. All our majors are designed to prepare students to lead for the greater good.

Learn more about our [academic programs](#) and [direct admission](#) process. Students can send an email to [oneillam@iu.edu](mailto:oneillam@iu.edu) to schedule a visit, talk to a current student, or learn about our 50+ available scholarships. O'Neill representatives are happy to speak to one of your school's AP classes or student organizations about career opportunities in public and environmental affairs.

## SCHOOL OF NURSING

The IU School of Nursing in Bloomington is committed to finding innovative ways to advance the health of the communities it serves. As part of the Bachelor of Science in Nursing program requirements, students will have opportunities to lead or participate in health promotion projects that are building healthier communities in south central Indiana. Admitted IU students are eligible to apply to the School of Nursing after taking a combination of required and general education courses that will be used on the nursing application as pre-nursing coursework when students first come to IU Bloomington.

Joining us for an information session is a great way to get to know the School of Nursing. We look at the nursing program curriculum, admission criteria, and go over the nursing application process. Students will also learn about the IU Bloomington Health Sciences Building at the IU Regional Academic Health Center, a state-of-the-art facility with classrooms, labs, and clinics.

Learn more about our [academic programs](#) and [application process](#)—or register for an information session at [admissions.indiana.edu/visit](https://admissions.indiana.edu/visit).

---

## SCHOOL OF PUBLIC HEALTH

Public Health includes everything from recreational therapy to promoting child wellness and tracking disease—as well as creating and maintaining safe food, workplaces, and natural environments. At the School of Public Health-Bloomington, students prepare for challenging careers that promote wellness and improve the lives of individuals and communities everywhere.

[Public Health programs](#) emphasize health and quality of life as a human right through multidisciplinary approaches to teaching, learning, and research. We offer 14 undergraduate majors and more than 20 minors in areas like community health and human services, health and life sciences, healthcare and wellness, and sports, events, tourism, and recreation.

Learn more about our [academic programs](#).

Connect with us and learn more about the School of Public Health-Bloomington at [publichealth.indiana.edu](https://publichealth.indiana.edu).

## SCHOOL OF SOCIAL WORK

The Indiana University School of Social Work is the oldest school of social work in the country, and the largest and highest-ranked in Indiana. Students who earn a **Bachelor of Social Work** go on to create positive change for individuals and families in a variety of sectors, including healthcare, child welfare, criminal justice, K-12 schools, community organizing, public policy, and more. Bachelor of Social Work graduates have the unique opportunity to earn a Master of Social Work in just one year, meaning they can earn their BSW and MSW at IU Bloomington in just 5 years. Master of Social Work graduates can pursue licensure as clinical social workers and are, in fact, the largest group of mental health providers in the United States. Learn more about our **direct admission** process.

Interested in a presentation about careers in social work for your high school students? Prospective IU students are encouraged to sign up for an **Academic Info Session** with the School of Social Work, or email Colleen Rose at [rosec@iu.edu](mailto:rosec@iu.edu) to set up a virtual meeting.
