The College of Arts and Sciences does more than prepare you for work—it prepares you for life. With 80 different programs, students can combine multiple majors and minors to create an educational experience that is unique to what they care the most about. Students combine degrees like chemistry and art history to work in art restoration, human biology and Hakha Lai to translate and create public health educational materials for Burmese refugees, and geography and environmental and sustainability studies to go into environmentally responsible urban planning.

Students are equipped for all the directions life may lead them because, no matter what they study, they will be developing the Five Foundational Skills of the College: question critically, think logically, communicate clearly, act creatively, and live ethically. Employers say that the creative, communicative, and problem-solving abilities that traditionally come from a liberal arts education are the most valuable attributes they see in employees.

Learn more about these skills and get a feel for the College by exploring our Skills are Forever campaign. And, of course, reach out to us with any questions at collinfo@iu.edu.

ESKENAZI SCHOOL OF ART, ARCHITECTURE + DESIGN

The Eskenazi School is where artists, designers, and merchandisers find their community and shape their skills with guidance from expert creatives. Our graduates go on to become innovators, artists, designers, and retail industry leaders. We are dedicated to preparing students for a wide range of careers, and foster one of the most important skills in today’s job market—creativity—along with the ability to collaborate, think critically, and approach problems creatively.

The Eskenazi School offers the following degrees:

- **Comprehensive Design B.S.**: Learn how to use design thinking to find creative solutions to a range of problems while focusing on being human-centered and sustainable.

- **Fashion Design B.A.**: Begin with sewing fundamentals and conceptual basics of designing pieces and learn more advanced techniques as you progress. The program culminates with seniors presenting in our annual fashion show.

- **Interior Design B.S.**: Understand how to design different types of spaces, from commercial, recreation, health, and residential. Our CIDA accredited program prepares students for the NCIDQ exam to become a licensed interior designer shortly after graduation.

- **Merchandising B.S.**: Study everything from creating a business plan and forecasting trends to being able to identify the best fibers and finishes to use in products.

- **Studio Art B.A. + B.F.A.**: Students can choose one or a range of concentrations in ceramics, digital art, fibers, graphic design, metalsmithing & jewelry design, painting, photography, printmaking, or sculpture.

Students, faculty, and counselors may contact soadadmt@iu.edu with questions.

KELLEY SCHOOL OF BUSINESS

Ranked 8th by U.S. News and World Report, the Kelley School of Business differentiates itself from other business schools by giving students time to explore almost 20 different academic programs, offering a common curriculum for all business majors for at least two years. Students develop career preparedness and professionalism over three years in required coursework, with a fourth year focused on major-specific classes. To prepare students for a global business mindset, Kelley offers nearly 60 study abroad opportunities in 29 countries—some are also counted as internships.

The Kelley School of Business offers direct admission automatically for fall 2023 high school students who complete their application to IU before November 1 and meet the stated criteria. Petition for direct admission is available for students who decide to not include test scores as part of their application or who do not meet the stated criteria. Standard admission can be offered automatically after the first academic year at IU if the student meets curriculum requirements and achieves B’s and above in all courses. Standard admission applications that do not meet automatic criteria will be comprehensively reviewed.

The School of Education is ranked #1 in Indiana amongst education degrees. In addition to a variety of minors, license additions, and a certificate program, the school offers nine majors including counseling and student services, early childhood education, elementary education, music education, secondary education, special education/elementary education-teaching all learners, special education – secondary, visual arts education, and world languages. Each of our programs is carefully designed according to our Six Principles for Teacher Education. The state of Indiana maintains reciprocal agreements with the majority of U.S. states, allowing IU graduates to more easily teach in other states. Our Global Gateway for Teachers program offers an option for students to fulfill their student teaching requirement while gaining an invaluable cultural immersion experience recognized as some of the most rigorous and innovative professional opportunities available. Students can sign up for an information session in the fall or contact us for a one-on-one appointment any time during the year.

Our College, Culture, and Careers Academy program is a great way for Black, Latinx, and indigenous students and rural males to learn more about careers in education and prepare for college.

Students who choose to apply to IU have the opportunity to be directly admitted to the School of Education, may be offered a stipend to teach abroad, and/or receive an academic scholarship. For more information and to schedule an appointment please contact Associate Director of Undergraduate Recruitment Melissa Fulford at mfulford@indiana.edu or call our office at 812-856-8500.

HAMILTON LUGAR SCHOOL OF GLOBAL AND INTERNATIONAL STUDIES

Students interested in global issues like climate change, foreign policy, human rights, immigration, and public health will find what they’re looking for in the Hamilton Lugar School of Global and International Studies—a national leader in the study of international affairs and the strategic languages, cultures, and perspectives shaping our world.

We take a multidisciplinary approach to global education, with 25 majors and minors that help develop knowledge and expertise in nearly every world region. We also offer instruction in over 80 languages—the most in the country—and support Language Flagship programs in Arabic, Chinese (Mandarin), and Russian. This language fluency leads to global fluency, with more than 70% of our students participating in 300+ study abroad programs. By graduation, they have the edge needed to succeed in a diversity of career paths, including business, diplomacy, journalism, law, medicine, policy, and academia.

The first step to changing the world is seeking to understand it. We teach our students how.

LUDDY SCHOOL OF INFORMATICS, COMPUTING, AND ENGINEERING

For students interested in technology, coding, artificial intelligence, or robotics, IU’s Luddy School of Informatics, Computing, and Engineering offers five bachelor’s degrees that cover the gamut from computer science and data science to unique degrees like informatics, intelligent systems engineering, and cybersecurity & global policy. No previous technology experience is necessary. Luddy faculty, staff, and students work together to support and encourage all students to succeed in our innovative Luddy Hall and Luddy Living Learning Center facilities. The school aims to provide talented graduates and professional expertise to a wide range of computing and information technology businesses and occupations. Check out where our students are employed after they graduate from the Luddy School.

THE MEDIA SCHOOL

The Media School offers programs in media, journalism, game design, and cinematic arts. Undergraduate students can gain early hands-on experience through classes and internships, and by participating in the over twenty media-related student organizations available through The Media School. After graduating, alumni go on to be journalists, marketing professionals, advertising executives, public relations experts, filmmakers, game designers, and more.

Additionally, The Media School offers three precollege programs for current high school students: High School Journalism Institute, Game Development Camp, and the Cinema Academy.

For more information about programs and opportunities, check out our website. To set up a class visit or field trip, email mschinfo@iu.edu.

JACOBS SCHOOL OF MUSIC

Students at the Jacobs School of Music learn from internationally renowned faculty who are celebrated performers, scholars, and educators. Students will become a part of a music community like no other and will have the opportunity to put what they’ve learned in their lessons to the test, live and on stage, through numerous performances. We offer more than 1,100 performances a year by ensembles, orchestras, bands, soloists, and choirs as well as fully staged operas and ballets. In addition, and unlike many other music schools, Jacobs students can pursue an area of study in an outside field.

Interested students must first submit an IU application by our November 1 early action (non-binding) deadline, then submit the Jacobs School of Music Supplemental Application by December 1. Please review our steps to apply to learn more.

We welcome you and your students to attend an information session to learn more and connect with admissions staff. During the academic year, we offer in-person sessions and tours on weekdays at 10 a.m. Eastern Time. We also welcome you to join one of our virtual sessions, which will be offered several times per week during the fall semester.

O’NEILL SCHOOL OF PUBLIC AND ENVIRONMENTAL AFFAIRS

The O’Neill School of Public and Environmental Affairs is ranked #1 in the nation for environmental policy and management and nonprofit management and is a national leader in the field of public policy and administration. Our program highlights include the Washington Leadership Program, a semester-long opportunity to intern and take courses towards your degree in Washington, D.C., and the NextGen Leadership Program, a certificate program for students with a commitment to public service.

Students with an interest in the environment, law and policy, government, or leadership and advocacy are an excellent fit for one of our programs. We award over 50 scholarships to incoming freshmen each year who apply by November 1.

We invite all interested students to connect with us at oneillam@indiana.edu to schedule a visit or arrange an appointment with one of our student ambassadors.

To set up a time for a representative from O’Neill to speak to one of your school’s Advanced Placement classes or student organizations about career opportunities in public and environmental affairs, please contact oneillam@indiana.edu.

SCHOOL OF NURSING

The IU School of Nursing in Bloomington is committed to finding innovative ways to advance the health of the communities it serves. As part of the Bachelor of Science in Nursing program requirements, students will have opportunities to lead or participate in health promotion projects that are building healthier communities in south central Indiana. Admitted IU students are eligible to apply to the School of Nursing after taking a combination of required and general education courses that will be used on the nursing application as pre-nursing coursework when students first come to IU Bloomington.

Joining us for an information session is a great way to get to know the School of Nursing. We look at the nursing program curriculum, admission criteria, and go over the nursing application process. Students will also learn about the new IU Bloomington Health Sciences Building at the IU Regional Academic Health Center, a state-of-the-art facility with classrooms, labs, and clinics.

Register for an information session at visit.indiana.edu.

SCHOOL OF PUBLIC HEALTH

At the IU School of Public Health-Bloomington, we prepare students for challenging careers that promote wellness and the prevention of disease in communities everywhere. Since our founding in 1946, we’ve witnessed the world’s changing health needs—including the ways public health practice, physical activity, nutrition, the environment, and recreation enhance wellness.

Our focus:

- Health and quality of life as a human right
- Diversity and the value of a global perspective
- A multidisciplinary approach to learning and research
- Helping others through community engagement
- The educational value of career and internship experiences

We offer 14 undergraduate majors and 20+ minors related to the following career areas:

- Community health & human services
- Health & life sciences
- Healthcare & wellness
- Sports, events, tourism, & recreation

Connect with us and learn more about the School of Public Health by visiting our website.

SCHOOL OF SOCIAL WORK

The Indiana University School of Social Work is the oldest school of social work in the country, and the largest and highest-ranked in Indiana. Students who earn a Bachelor of Social Work go on to create positive change for individuals and families in a variety of sectors, including healthcare, child welfare, criminal justice, K-12 schools, community organizing, public policy, and more. Bachelor of Social Work graduates have the unique opportunity to earn a Master of Social Work in just one year, meaning they can earn their BSW and MSW at IU Bloomington in just 5 years. Master of Social Work graduates can pursue licensure as clinical social workers and are, in fact, the largest group of mental health providers in the United States.

Interested in a presentation about careers in social work for your high school students? Prospective IU students are encouraged to sign up for an IUB Academic Info Session with the School of Social Work, or email Colleen Rose at rosec@indiana.edu to set up a virtual meeting.
